TestPro CV100
Manufacturer Warranty Approvals

A manufacturer-approved warranty ensures that network installations are tested and certified in accordance with manufacturer requirements, safeguarding long-term performance, compliance, and eligibility for extended system warranties. It also reduces risk and rework by providing verified documentation and assurance that the infrastructure meets the standards expected by leading cabling vendors.

AEM Networks' TestPro CV100 offers one of the broadest ranges of manufacturer approvals for warranties.

TestPro CV100
Manufacturer Warranty Approvals

Fiber Optic

Fiber testing compliance

Manufacturers who do not offer warranty program approvals for fiber optic, but instead provide fiber testing requirements for their cabling system, of which the AEM TestPro CV100 is compliant.
